Key Features

Early payment options

Firstly, our Supply Chain Finance solutions, including Dynamic Discounting, offer early payment options to suppliers. This allows them to receive payments sooner and also improve their cash flow. All while providing buyers with the opportunity to capture discounts for early payments, creating a win-win situation for both parties.

Streamlined payment processing

Next, our B2B Payments solution simplifies and automates payment processing by offering integrated payment, ensuring faster and more accurate payment.

Real-time visibility and control

Our finance solutions, including Dynamic Discounting, provide real-time visibility and control over the supply chain finance process. This enables procurement and finance teams to have full visibility of transactions, AI-based analytics, and auditable records, therefore ensuring greater levels of accuracy and compliance.

Flexibility and customisation

Our finance solutions, such as Dynamic Discounting and B2B Payments, offer flexibility and customisation options to meet the unique needs of businesses. Businesses can tailor payment terms, discount rates, and financing options according to their specific requirements. As a result, this allows them to optimise their financing strategies and adapt to changing business dynamics.

Seamless integration

Our Supply Chain Finance solutions, including Dynamic Discounting and B2B Payments, are designed to seamlessly integrate with other B2BE solutions. For example, Document Management, Purchase to Pay or Order to Cash. This means end-to-end automation and optimisation of back-office functionality, enhancing overall operational efficiency and effectiveness.

Supply Chain Finance solutions

Dynamic Discounting

Optimise your cash flow and strengthen buyer and supplier relationships with our Dynamic Discounting solution. Our automated and flexible supply chain finance solution allows you to offer early payment options to your suppliers in exchange for discounts. This helps you optimise working capital and improve cash flow management.

B2B Payments

Simplify and streamline your business-to-business payments with our B2B Payments solution. Our secure and efficient payment processing solution enables you to seamlessly manage payments to your suppliers. This therefore reduces manual efforts and increases payment accuracy.

What you can achieve with B2BE's Document Management solutions

Enhanced operational efficiency

B2BE's Supply Chain Finance solutions automate workflows and provide real-time visibility into payment status. This therefore allows businesses to streamline payment processes, reduce manual efforts, and eliminate errors, resulting in enhanced operational efficiency and productivity.

Increased cost savings

Our solutions, such as Dynamic Discounting, can result in cost savings through early payment discounts or favourable payment terms negotiated with suppliers.

Competitive advantage

Adopting B2BE's Supply Chain Finance solutions, can give businesses a competitive edge in the market. By optimising cash flow, improving supplier relationships, increasing cost savings, and enhancing operational efficiency, businesses can position themselves as reliable partners in the supply chain, therefore gaining a competitive advantage over competitors.

Improved cash flow management

Our solutions enable businesses to optimise working capital by strategically managing cash flow. By using B2BE's Supply Chain Finance solutions, businesses are able to access early payment discounts or negotiate favourable payment terms with suppliers. Moreover, this helps businesses hold on to cash for longer periods and improve overall cash flow management.

Enhanced supplier collaboration

Our solutions foster enhanced collaboration with suppliers by providing them with flexible payment options, faster payment cycles through B2B Payments, and dynamic discounting incentives. As a result, this improves supplier relationships and creates mutually beneficial partnerships in the supply chain ecosystem.
