

Solution

Is your organisation looking to expand it's payment options?

Gain access to a secure payment platform to pay your suppliers via credit card

Why B2B ePayment?

Are you seeking a solution to enhance your business's financial efficiency while reducing operational costs? B2B ePayment for buyers offers precisely that opportunity. This platform transforms the payment process by providing a secure and convenient means for buyers to settle invoices with their suppliers using credit cards, all without requiring suppliers to possess a credit card terminal.

B2B ePayment enables buyers to leverage credit card payments to their suppliers, unlocking a host of benefits. This new, innovative way of paying reduces transaction costs for your business, as Electronic Funds Transfer (EFT) payments typically incur lower fees compared to credit card processing. This translates into significant savings for businesses, contributing to improved financial health.

Through direct settlement via EFT or alternative solutions for discounted payments buyers are able to facilitate better working capital management. Buyers gain greater control over cash flow timing and costing. Which provides enhanced financial planning capability ensures smoother operations and minimizes financial risks.

Why the B2B ePayment platform?

Designed to streamline your payment processes and strengthen buyer-supplier relationships. With our platform, buyers gain access to an intuitive Payment Portal, exclusively for reporting purposes, providing a comprehensive view of all transaction reports.

Stay informed and take timely action with Email Notifications, ensuring you never miss important updates or opportunities to optimize your payment strategy.

The B2B ePayment platform facilitates stronger buyer-supplier relationships by offering early payment options. By demonstrating your commitment to prompt and reliable payments, you can foster trust and collaboration with suppliers, leading to improved supplier performance, better communication, and enhanced competitiveness in the marketplace.

The B2B ePayment solution for buyers

The B2B ePayment system empowers buyers with a secure and efficient payment platform, revolutionizing the way businesses manage transactions with their suppliers. By leveraging this solution, buyers can conveniently pay suppliers via credit cards, without requiring suppliers to possess a credit card terminal.

Here's how buyers benefit from using the B2B ePayment system:

Faster, Scalable Working Capital Management: Enables swift deployment and immediate scaling of payments to all suppliers using Virtual Card Numbers (VCN) and Electronic Funds Transfer (EFT).

Cost and Time Savings: Lowers transaction costs and reduces administrative workload through automation, ensuring streamlined reconciliation, reporting, and the ability to secure better terms through volume discounts.

Enhanced Security and Fraud Prevention: Leverages advanced technology and secure networks with due diligence processes (including KYC and AML/CTF) to minimise fraud risk, eliminating manual intervention and data leaks.

Compliance and Partner Collaboration Savings: Ensures adherence to regulatory standards, fulfilling PCI DSS requirements, and enhancing operational efficiency and data security.

Operational Efficiency: Automates the entire payment process from initiation to settlement with real-time tracking, providing greater visibility and cash flow control.

The B2B ePayment system offers comprehensive services, including centralized card payment processing, a user-friendly payment portal for reporting, email notifications for timely updates, efficient onboarding and Know Your Customer (KYC) processes, and robust campaign planning and execution capabilities.

Buyers gain access to reports 24x7 via the payment portal, with features such as filtering by supplier or category, transaction search functionality, and document linking for easy reconciliation and status checking. With these features, buyers can streamline payment processing, enhance financial visibility, and drive business success.
